

Otamixaban

Cat. No. CEI-1457

Lot. No. (See product label)

Introduction

Description Otamixaban(FXV673) is a potent, selective, rapid acting, competitive and reversible

inhibitor of fXa with a Ki value of 0.5 nM.

Synonyms FXV 673; FXV-673; FXV673

Product Information

CAS No. 193153-04-7

Molecular Formula C25H26N4O4

Chemical Name methyl (2R,3R)-2-[(3-carbamimidoylphenyl)methyl]-3-[[4-(1-oxidopyridin-1-ium-4-

yl)benzoyl]amino]butanoate

Molecular Weight 446.53

Purity 98.00%

Targets Factor Xa

IC50 0.5 nM (Ki)

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT,

or blue ice upon request
