

PSI-6130

Cat. No. CEI-1487

Lot. No. (See product label)

Introduction

Description PSI-6130 is a potent and selective inhibitor of HCV NS5B polymerase

Synonyms R 1656; PSI 6130; PSI6130; R-1656

Product Information

CAS No. 817204-33-4

Molecular Formula C₁₀H₁₄FN₃O₄

Chemical Name 4-amino-1-[(2R,3R,4R,5R)-3-fluoro-4-hydroxy-5-(hydroxymethyl)-3-methyloxolan-2-yl]pyrimidin-2-one

Molecular Weight 259.23

Purity 0.98

Targets Hepatitis C Virus Nucleoside

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
