

Regorafenib monohydrate

Cat. No. CEI-1495

Lot. No. (See product label)

Introduction

Synonyms BAY 73-4506 monohydrate

Product Information

CAS No. 1019206-88-2

Molecular Formula C21H17CIF4N4O4

Chemical Name 4-[4-[[4-chloro-3-(trifluoromethyl)phenyl]carbamoylamino]-3-fluorophenoxy]-N-

methylpyridine-2-carboxamide; hydrate

Molecular Weight 500.83

Purity 99.28%

Targets Tyrosine kinase

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT,

or blue ice upon request
