ZM323881

Cat. No. CEI-1595

Lot. No. (See product label)

Introduction

Description	ZM323881 is a potent and selective inhibitor of human vascular endothelial growth factor receptor 2 (VEGFR-2/KDR) with IC50 value of 2 nM.
Synonyms	ZM 323881; ZM-323881

Product Information

CAS No.	193001-14-8
Molecular Formula	C22H18FN3O2
Chemical Name	4-fluoro-2-methyl-5-[(7-phenylmethoxyquinazolin-4-yl)amino]phenol
Molecular Weight	375.4
Purity	98.00%
Targets	VEGFR-2/KDR
IC50	2 nM
Solubility	DMSO

Storage and Shipping Information

Storage	Store at -20°C
Shipping Conditions	Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
