

Ox bile extract powder

Cat. No. OBE-001

Lot. No. (See product label)

Introduction

Description

Bile Extract Powder (Ox Bile Desiccated), dried or desiccated which contains ox bile acids. This powder is specifically been developed for Pharmaceutical Industry, which is prepared by a low temperature dehydration process which ensures a uniform product. Bile Extract Powder, dried is a mixture of conjugated bile acids (Cholic Acid, Deoxycholic Acid, Taurocholic and Glycocholic Acids). It is a straight forward drying of Ox Bile liquid, which contains all of the constituents characteristics, found in Ox Bile. None of the bile salts, bile pigments cholesterol, mucin, etc. has been removed.

Applications

Bile Extract Powder is used to emulsify lipids in food passing through the intestine to enable fat digestion and absorption through the intestinal wall. Bile salts aid in the breakdown of saturated fats that the digestive system has not been able to convert into unsaturated fats. The body uses these unsaturated fats to manufacture Essential Vitamins and Hormones. Many individuals without proper Gallbladder function find it helpful to supplement with the best Bile Salts.

Synonyms

Ox bile extract; Ox bile; BILE SALT; Ox bile powder

Product Information

Source

Ox bile

Appearance

Greenish to yellowish colour free flowing powder.

Optimum pH

6.0 - 7.0
