

D-Luciferin potassium salt

Cat. No. CSUB-0359

Lot. No. (See product label)

Introduction

Applications

D-Luciferin may be used in luciferase-based (EC 1.13.12.7) bioluminescence imaging and cell-based high-throughput screening applications. ATP can be measured with a reagent made up of D-luciferin and luciferase from firefly. D-Luciferin may be used and studied as a partial agonist for G protein-coupled receptor-35 (GPR35).
