Creative Enzymes®

MMP-2 Substrate, Fluorogenic

Cat. No. CSUB-0494

Lot. No. (See product label)

Product Information

Form	Yellow lyophilized solid
Formulation	Supplied as a trifluoroacetate salt.
Purity	>95% by HPLC
Toxicity	Standard Handling
Substrates	Protease
Excitation max.	~325 nm
Emission max.	~393 nm
Primary target	A quenched fluorescence substrate for MMP-2 (gelatinase A)

Storage and Shipping Information

Storage	-20C
Shipping Conditions	ambient
