

Cathepsin B Substrate III, Fluorogenic

Cat. No. CSUB-0499

Lot. No. (See product label)

Introduction

Synonyms Z-RR-AMC, 2HCl

Product Information

Form White lyophilized solid

CAS No. 136132-67-7

Purity >95% by HPLC

Toxicity Standard Handling

Substrates Protease

Excitation max. ~360-380 nm

Emission max. ~430-460 nm

Primary target Cathepsin B

Storage and Shipping Information

Storage -20C

Shipping Conditions ambient
