

Proteasome Substrate III, Fluorogenic

Cat. No. CSUB-0505

Lot. No. (See product label)

Introduction

Synonyms Suc-LLVY-AMC; Chymotrypsin Substrate III; Fluorogenic

Product Information

Form White amorphous solid

CAS No. 94367-21-2

Purity >98% by HPLC

Toxicity Standard Handling

Substrates Protease

Excitation max. ~380 nm

Emission max. ~460 nm

Primary target Proteasome

Storage and Shipping Information

Storage -20C

Shipping Conditions ambient
