

Caspase-3 Substrate IX, Fluorogenic

Cat. No. CSUB-0511

Lot. No. (See product label)

Introduction

Synonyms (Z-DEVD)₂-Rh 110

Product Information

Form Yellow lyophilized solid

Formulation Supplied as a trifluoroacetate salt.

Purity >95% by HPLC

Toxicity Standard Handling

Substrates Protease

Excitation max. ~485 nm

Emission max. ~535 nm

Primary target A highly sensitive, photostable caspase-3 fluorogenic substrate

Storage and Shipping Information

Storage -20C

Shipping Conditions wet ice
