2-Chloro-4-nitrophenyl-β-D-cellobioside

Cat. No. CSUB-0642

Lot. No. (See product label)

Introduction

Description	2-Chloro-4-nitrophenyl-β-D-cellobioside is used as substrate for cellulase.
Applications	An agent used as substrate for cellulase
Synonyms	2-Chloro-4-nitrophenyl 4-O-β-D-glucopyranosyl-β-D-glucopyranoside

Product Information

Form	Solid
CAS No.	135743-28-1
Molecular Formula	C18H24ClNO13
Molecular Weight	497.84
Substrates	Cellobiohydrolase
Refractive Index	1.68 (Predicted)

Storage and Shipping Information

Storage	Store at 4° C
