

2-Chloro-4-nitrophenyl-β-D-lactoside

Cat. No. CSUB-0643

Lot. No. (See product label)

Introduction

Description 2-Chloro-4-nitrophenyl-β-D-lactoside is a substrate used for the determination of cellobiohydrolase I.

Applications A substrate used for the determination of cellobiohydrolase

Product Information

Form Solid

CAS No. 120583-41-7

Molecular Formula C₁₈H₂₄ClNO₁₃

Molecular Weight 497.84

Solubility Soluble in water (partly).

Substrates UMP/CMP kinase

Storage and Shipping Information

Storage Store at 4° C
