

## 4-(Trifluoromethyl)umbelliferyl- $\beta$ -D-glucopyranoside

Cat. No. CSUB-0661

Lot. No. (See product label)

### Introduction

**Description** 4-(Trifluoromethyl)umbelliferyl- $\beta$ -D-glucopyranoside is a convenient substrate for determining  $\beta$ -glucosidase for diagnostic purposes.

**Applications** A convenient substrate for determining  $\beta$ -glucosidase for diagnostic purposes

### Product Information

**Form** Solid

**CAS No.** 116981-86-3

**Molecular Formula** C<sub>16</sub>H<sub>15</sub>F<sub>3</sub>O<sub>8</sub>

**Molecular Weight** 392.28

**Melting Point** >220° C

**Solubility** Soluble in DMF, and DMSO.

**Substrates** Trypsin-like enzymes

### Storage and Shipping Information

**Storage** Store at 4° C
