

4-(Trifluoromethyl)umbelliferyl- β -D-glucopyranoside

Cat. No. CSUB-0661

Lot. No. (See product label)

Introduction

Description 4-(Trifluoromethyl)umbelliferyl- β -D-glucopyranoside is a convenient substrate for determining β -glucosidase for diagnostic purposes.

Applications A convenient substrate for determining β -glucosidase for diagnostic purposes

Product Information

Form	Solid
CAS No.	116981-86-3
Molecular Formula	C ₁₆ H ₁₅ F ₃ O ₈
Molecular Weight	392.28
Melting Point	>220° C
Solubility	Soluble in DMF, and DMSO.
Substrates	Trypsin-like enzymes

Storage and Shipping Information

Storage Store at 4° C
