

4-Acetylphenyl sulfate potassium salt

Cat. No. CSUB-0663

Lot. No. (See product label)

Introduction

Description 4-Acetylphenyl sulfate potassium salt is a specific substrate for rat arylsulfatase C.

Applications A specific substrate for rat arylsulfatase C

Synonyms Potassium p-acetylphenyl sulphate

Product Information

Form Solid

CAS No. 38533-41-4

Molecular Formula C₈H₇KO₅S

Molecular Weight 254.3

Storage and Shipping Information

Storage Store at -20° C
