

4-Methylumbelliferyl 6-Sulfo-2-acetamido-2-deoxy- α -D-glucopyranoside Potassium Salt

Cat. No. CSUB-0675

Lot. No. (See product label)

Introduction

Description 4-Methylumbelliferyl 6-Sulfo-2-acetamido-2-deoxy- α -D-glucopyranoside Potassium Salt is a substrate for the lysosomal N-acetylglucosamine-6-sulphate sulphatase.

Applications A lysosomal N-acetylglucosamine-6-sulphate sulphatase substrate

Product Information

Form	Solid
CAS No.	210357-37-2
Molecular Formula	C ₁₈ H ₂₀ NO ₁₁ S•K
Molecular Weight	497.51
Melting Point	195-197 °C
Solubility	Soluble in water, and methanol.
Substrates	GNS

Storage and Shipping Information

Storage Desiccate at -20° C
