4-Methylumbelliferyl β-D-fucoside

Cat. No. CSUB-0687

Lot. No. (See product label)

Introduction

Description	4-Methylumbelliferyl β-D-fucoside is a fluorogenic substrate for β-D-Fucosidase, producing a blue fluorescent solution upon cleavage.
Applications	A fluorogenic substrate

Product Information

Form	Solid
CAS No.	55487-93-9
Molecular Formula	C16H18O7
Molecular Weight	322.31
Substrates	Lysozyme

Storage and Shipping Information

Storage	Store at -20° C
