

4-Methylumbelliferyl β -D-fucoside

Cat. No. CSUB-0687

Lot. No. (See product label)

Introduction

Description 4-Methylumbelliferyl β -D-fucoside is a fluorogenic substrate for β -D-Fucosidase, producing a blue fluorescent solution upon cleavage.

Applications A fluorogenic substrate

Product Information

Form Solid

CAS No. 55487-93-9

Molecular Formula C₁₆H₁₈O₇

Molecular Weight 322.31

Substrates Lysozyme

Storage and Shipping Information

Storage Store at -20° C
