4-Nitrophenyl beta-L-fucopyranoside

Cat. No. CSUB-0691

Lot. No. (See product label)

Introduction

Description	4-Nitrophenyl beta-L-fucopyranoside is a chromogenic substrate for β-D-Fucosidase, producing a yellow solution upon cleavage.
Applications	A chromogenic substrate

Product Information

Form	Solid
CAS No.	22153-71-5
Molecular Formula	C12H15NO7
Molecular Weight	285.25
Substrates	Lipase

Storage and Shipping Information

Storage	Store at -20° C
