

4-Nitrophenyl beta-L-fucopyranoside

Cat. No. CSUB-0691

Lot. No. (See product label)

Introduction

Description 4-Nitrophenyl beta-L-fucopyranoside is a chromogenic substrate for β -D-Fucosidase, producing a yellow solution upon cleavage.

Applications A chromogenic substrate

Product Information

Form Solid

CAS No. 22153-71-5

Molecular Formula C₁₂H₁₅NO₇

Molecular Weight 285.25

Substrates Lipase

Storage and Shipping Information

Storage Store at -20° C
