4-Nitrophenyl valerate

Cat. No. CSUB-0698

Lot. No. (See product label)

Introduction

Description	4-Nitrophenyl valerate is a model substrate for butyrylcholinesterase and carboxylesterase.
Applications	A model substrate for butyrylcholinesterase and carboxylesterase
Synonyms	Pentanoic acid 4-nitrophenyl ester

Product Information

Form	Liquid
CAS No.	1956-07-6
Molecular Formula	C11H13NO4
Molecular Weight	223.23
Melting Point	98.51 °C (Predicted)
Substrates	Arabinosidase

Storage and Shipping Information

Storage	Store at -20° C
