

5-Bromo-3-indoxyl phosphate, p-toluidine salt

Cat. No. CSUB-0704

Lot. No. (See product label)

Introduction

Description Employed as a substrate for alkaline phosphatase, producing a blue colored precipitate when cleaved.

Applications A chromogenic substrate for alkaline phosphatase

Product Information

Form Solid

CAS No. 80008-69-1

Molecular Formula C₈H₇BrNO₄P·C₇H₉N

Molecular Weight 399.18

Storage and Shipping Information

Storage Store at -20° C
