

5-Bromo-4-chloro-3-indolyl α -D-galactopyranoside

Cat. No. CSUB-0707

Lot. No. (See product label)

Introduction

Description 5-Bromo-4-chloro-3-indolyl α-D-galactopyranoside is a chromogenic substrate

which can be used to demonstrate $\alpha\text{-}Galactosidase$ activity.

Applications A chromogenic substrate

Synonyms $X-\alpha$ -Gal

Product Information

Form Solid

CAS No. 107021-38-5

Molecular Formula C14H15BrCINO6

Molecular Weight 408.63

Solubility Clear, colorless and complete

Storage and Shipping Information

Storage Store at -20° C

Tel: 1-631-562-8517 1-516-512-3133 **Email:** info@creative-enzymes.com
