5-Bromo-4-chloro-3-indoxyl-α-D-fucopyranoside

Cat. No. CSUB-0709

Lot. No. (See product label)

Introduction

Description	Several types of assays can be performed measuring galactosidase activity in yeast using 5-Bromo-4-chloro-3-indoxyl-α-D-fucopyranoside as subtrate.
Applications	A substrate for galactosidases

Product Information

Molecular Formula	C14H15BrClNO5
Molecular Weight	392.64
Substrates	Glycosidase

Storage and Shipping Information

Storage	Store at -20° C
