

5-Bromo-4-chloro-3-indoxyl- α -D-fucopyranoside

Cat. No. CSUB-0709

Lot. No. (See product label)

Introduction

Description Several types of assays can be performed measuring galactosidase activity in yeast using 5-Bromo-4-chloro-3-indoxyl- α -D-fucopyranoside as substrate.

Applications A substrate for galactosidases

Product Information

Molecular Formula C₁₄H₁₅BrClNO₅

Molecular Weight 392.64

Substrates Glycosidase

Storage and Shipping Information

Storage Store at -20° C
