

5-Bromo-4-chloro-3-indoxyl- α -D-fucopyranoside

Cat. No. CSUB-0709

Lot. No. (See product label)

Introduction

Description Several types of assays can be performed measuring galactosidase activity in yeast using 5-Bromo-4-

chloro-3-indoxyl- α -D-fucopyranoside as subtrate.

Applications A substrate for galactosidases

Product Information

Molecular

C14H15BrClNO5

Formula

Molecular 392.64

Weight

Substrates Glycosidase

Storage and Shipping Information

Storage Store at -20° C

Tel: 1-631-562-8517 1-516-512-3133
