

5-Iodo-3-indoxyl- β -D-galactopyranoside

Cat. No. CSUB-0715

Lot. No. (See product label)

Introduction

Applications A chromogenic substrate for β -D-galactosidase, producing a purple precipitate upon cleavage.

Synonyms Purple- β -D-Gal

Product Information

Form Solid

CAS No. 36473-36-6

Molecular Formula C₁₄H₁₆INO₆

Molecular Weight 421.19

Substrates Tryptophanase

Storage and Shipping Information

Storage Store at -20° C
