

8-(6-Aminohexyl)aminoadenosine 3':5'-cyclic monophosphate

Cat. No. CSUB-0732

Lot. No. (See product label)

Introduction

Description Cyclic AMP analog which shows partially selective agonist activity with Type I cAMP-dependent protein kinase isozyme.

Applications A substrate for type I cAMP-dependent protein kinase

Product Information

Form Solid

CAS No. 39824-30-1

Molecular Formula C₁₆H₂₆N₇O₆P

Molecular Weight 443.39

Substrates Esterases

Storage and Shipping Information

Storage Store at -20° C
