8-Butyryloxypyrene-1,3,6-trisulfonic acid trisodium salt

Cat. No. CSUB-0733

Lot. No. (See product label)

Introduction

Description	8-Butyryloxypyrene-1,3,6-trisulfonic acid trisodium salt is a highly water soluble enzyme substrate for the fluorimetric assay of esterases at longwave excitation and emission wavelengths.
Applications	A fluorescent enzyme substrate
Synonyms	Trisodium 8-butyryloxypyrene-1,3,6-trisulfonate

Product Information

CAS No.	115787-82-1
Molecular Formula	C20H13Na3O11S3
Molecular Weight	594.48
