

8-Butyryloxy pyrene-1,3,6-trisulfonic acid trisodium salt

Cat. No. CSUB-0733

Lot. No. (See product label)

Introduction

Description

8-Butyryloxy pyrene-1,3,6-trisulfonic acid trisodium salt is a highly water soluble enzyme substrate for the fluorimetric assay of esterases at longwave excitation and emission wavelengths.

Applications

A fluorescent enzyme substrate

Synonyms

Trisodium 8-butyryloxy pyrene-1,3,6-trisulfonate

Product Information

CAS No.

115787-82-1

Molecular Formula

C₂₀H₁₃Na₃O₁₁S₃

Molecular Weight

594.48
