8-Hydroxyquinoline-beta-D-glucuronic acid

Cat. No. CSUB-0736

Lot. No. (See product label)

Introduction

Description	8-Hydroxyquinoline-beta-D-glucuronic acid is a substrate for the histochemical demonstration of β-glucuronidase and for quantitative assay systems.
Applications	A substrate for the histochemical demonstration

Product Information

Form	Solid
CAS No.	14683-61-5
Molecular Formula	C15H15NO7
Molecular Weight	321.28
Substrates	β-D-glucuronidase
