

Acetyl-L-methionine 7-amido-4-methylcoumarin

Cat. No. CSUB-0741

Lot. No. (See product label)

Introduction

Description

Acetyl-L-methionine 7-amido-4-methylcoumarin can be used as a substrate for acylamino acid-releasing enzyme activity testing.

Applications

A substrate for acylamino acid-releasing enzyme

Product Information

CAS No.

354152-20-8

Molecular Formula

C₁₇H₂₀N₂O₄S

Molecular Weight

348.42

Substrates

Caspase-8; caspase-3; granzyme B

Storage and Shipping Information

Storage

Store at -20° C
