

Acetyl-L-methionine 7-amido-4-methylcoumarin

Cat. No. CSUB-0741

Lot. No. (See product label)

Introduction

Description Acetyl-L-methionine 7-amido-4-methylcoumarin can be used as a substrate to assay amino acid-releasing enzyme activity testing.

Applications A substrate for amino acid-releasing enzyme

Product Information

CAS No. 354152-20-8

Molecular Formula C₁₇H₂₀N₂O₄S

Molecular Weight 348.42

Substrates Caspase-8; caspase-3; granzyme B

Storage and Shipping Information

Storage Store at -20° C
