

Bis(5-bromo-4-chloro-3-indoxyl)pyrophosphoric acid, disodium salt

Cat. No. CSUB-0761

Lot. No. (See product label)

Introduction

Description Bis(5-bromo-4-chloro-3-indoxyl)pyrophosphoric acid is commonly used as a phosphatase substrate.

Applications A substrate for phosphatase

Product Information

Molecular Formula C₁₆H₈Br₂Cl₂Na₂N₂O₇P₂

Molecular Weight 678.9

Substrates Phosphatase

Storage and Shipping Information

Storage Store at -20° C
