Bis(5-bromo-6-chloro-3-indoxyl)pyrophosphoric acid, disodium salt

Cat. No. CSUB-0762

Lot. No. (See product label)

Introduction

Description	Bis(5-bromo-6-chloro-3-indoxyl)pyrophosphoric acid, disodium salt is commonly used as a phosphatase substrate.
Applications	A substrate for phosphatase

Product Information

Molecular Formula	C16H8Br2Cl2N2O7P2Na2
Molecular Weight	678.9
Substrates	Phosphatase

Storage and Shipping Information

Storage	Store at -20° C
