D-Maltose, Monohydrate

Cat. No. CSUB-0792

Lot. No. (See product label)

Introduction

Description	D-Maltose is a disaccharide produced when starch is broken down by amylase.
Applications	A disaccharide

Product Information

Form	Solid
CAS No.	6363-53-7
Molecular Formula	C12H22O11•H2O
Molecular Weight	360.3
Melting Point	120 °C (dec.)
Solubility	Soluble in water
Substrates	Inositol-1,3,4,6-tetraphosphate 5-kinase

Storage and Shipping Information

Storage	Store at room temperature
