

D-Maltose, Monohydrate

Cat. No. CSUB-0792

Lot. No. (See product label)

Introduction

Description D-Maltose is a disaccharide produced when starch is broken down by amylase.

Applications A disaccharide

Product Information

Form Solid

CAS No. 6363-53-7

Molecular Formula C₁₂H₂₂O₁₁•H₂O

Molecular Weight 360.3

Melting Point 120 °C (dec.)

Solubility Soluble in water

Substrates Inositol-1,3,4,6-tetrakisphosphate 5-kinase

Storage and Shipping Information

Storage Store at room temperature
