

Fluorogenic Proteasome Substrate Substrate

Cat. No. CSUB-0806

Lot. No. (See product label)

Introduction

Applications A fluorogenic substrate for measuring peptidase activity of 20S proteasome

Synonyms Z-LLL-AM; Cbz-Leu-Leu-Leu-7-amido-4-methylcoumarin

Product Information

Form Solid

Molecular Formula C₃₆H₄₈N₄O₇

Molecular Weight 648.8

Purity >98%

Substrates 20S proteasome

Storage and Shipping Information

Storage Desiccate at -20° C
