Creative Enzymes®

Maltose solution

Cat. No. CSUB-0866

Lot. No. (See product label)

Introduction

Description	Maltose solution is a carbohydrate substrate used to characterize, identify, and differentiate various enzymes.
Applications	A carbohydrate substrate used to characterize, identify, and differentiate various enzymes
Synonyms	4-(alpha-D-Glucopyranosido)-alpha-glucopyranose; 4-(alpha-D-Glucosido)-D-glucose; 4-o-alpha-d-glucopyranosyl-d-glucos; 4-O-Hexopyranosylhexose; alpha-Malt sugar; alpha-maltsugar; Cextromaltose; Maltos

Product Information

Form	Liquid
CAS No.	69-79-4
Molecular Formula	C12H22O11
Molecular Weight	342.3
Substrates	ERK 1 MAP kinases; ERK 2 MAP kinases

Storage and Shipping Information

Storage	Store at room temperature
