Methyl-D-erythritol Phosphate Disodium Salt

Cat. No. CSUB-0871

Lot. No. (See product label)

Introduction

Description	Methyl-D-erythritol Phosphate is a substrate for terpenoid biosynthesis; terpenoid biosynthesis enzyme Escherichia.
Applications	A substrate for terpenoid biosynthesis
Synonyms	(2S,3R)-2-Methyl-1,2,3,4-butanetetrol 4-(Dihydrogen Phosphate) Disodium Salt; 2-C-Methyl-D-erythritol 4-phosphate Disodium Salt; MEP Disodium Salt

Product Information

CAS No.	270928-69-3
Molecular Formula	C5H11Na2O7P␣
Molecular Weight	260.09
Substrates	Terpenoid biosynthesis

Storage and Shipping Information

Storage	Store at 4° C
