

N-Acetyl-L-tyrosine ethyl ester monohydrate

Cat. No. CSUB-0887

Lot. No. (See product label)

Introduction

Description Widely employed substrate for the determination of the esterase activity of chymotrypsin.

Synonyms ATEE

Product Information

Form Solid

CAS No. 36546-50-6

Molecular Formula C₁₃H₁₇NO₄•H₂O

Molecular Weight 269.29

Purity >98%

Melting Point 80-81° C

Solubility Soluble in ethanol (50 mg/ml), and water.

Substrates β-galactosidase

Refractive Index 1.81 (Predicted)

Storage and Shipping Information

Storage Store at 4° C
