

## Starch Azure

Cat. No. CSUB-0940

Lot. No. (See product label)

### Introduction

**Description** Starch Azure (Starch-Remazol brilliant blue R) is an insoluble starch corn covalently linked with Remazol Brilliant Blue R, similar to Amylose-Remazol Brilliant Blue R. Starch Azure is a substrate for colorimetric determination of  $\alpha$ -amylase.

**Applications** A corn starch covalently linked with RBB and a substrate for colorimetric determination of  $\alpha$ -amylase

**Synonyms** RBB-Starch; Remazol brilliant blue R dyed starch; Starch-Remazol brilliant blue R

### Product Information

**Form** Solid

### Storage and Shipping Information

**Storage** Store at room temperature
