

## Starch Azure

Cat. No. CSUB-0940

Lot. No. (See product label)

### Introduction

#### Description

Starch Azure (Starch-Remazol brilliant blue R) is an insoluble starch corn covalently linked with Remazol Brilliant Blue R, similar to Amylose-Remazol Brilliant Blue R. Starch Azure is a substrate for colorimetric determination of  $\alpha$ -amylase.

#### Applications

A corn starch covalently linked with RBB and a substrate for colorimetric determination of  $\alpha$ -amylase

#### Synonyms

RBB-Starch; Remazol brilliant blue R dyed starch; Starch-Remazol brilliant blue R

### Product Information

#### Form

Solid

### Storage and Shipping Information

#### Storage

Store at room temperature
