

β -Hydroxypyruvic acid

Cat. No. CSUB-0958

Lot. No. (See product label)

Introduction

Description	β -Hydroxypyruvic acid is a metabolite involved in the pathway of carbon in photorespiration.
Applications	A metabolite
Synonyms	3-Hydroxy-2-oxopropanoic acid

Product Information

CAS No.	1113-60-6
Molecular Formula	C3H4O4
Molecular Weight	104.06
Substrates	MCCase

Storage and Shipping Information

Storage	Store at 4° C
