Creative Enzymes®

Native Bovine Mucopolysaccharidase

Cat. No. NATE-0463

Lot. No. (See product label)

Introduction

Applications	In anti-cellulite preparations / promotion of topical drug absorption / local anesthesia / dispersion and dissipation of fluids and edema /in tissue and cell dissociation
Synonyms	Mucopolysaccharidase; 37326-33-3; Hyaluronate 4-glycanohydrolase

Product Information

Species	Bovine
Source	Bovine testes
Form	A freeze-dried material
CAS No.	9031-30-5
Activity	> 40 U/mg
Unit Definition	That amount of enzyme that, under the condition of the assay,reduces turbidity to that caused by 50% of substrate used.

Storage and Shipping Information

Storage	Store at <-15°C
