# Chaga Mushroom Extract

*Cat. No. EXTC-070*

*Lot. No.* (See product label)

## *Introduction*

***Description***

Chaga mushroom extract is prepared from the chaga, an irregularly shaped mushroom that commonly grows in northern regions on birch, alder and beech trees. Chaga mushroom extract contains the non-linear, chaga extract polysaccharides that give the Chaga extract potent immune supporting properties. Chaga mushroom extract powder can be widely used in oral liquid, tablet, soft capsule, beverage, cosmetics, food and other fields.
