

Ginkgo Biloba Extract

Cat. No. EXTC-009

Lot. No. (See product label)

Introduction

Description Ginkgo biloba extract is prepared from the leaves of Maidenhair Tree after Adiantum, which is a unique species of tree with no close living relatives. Ginkgo biloba leaf extract is used for the treatment of numerous conditions, many of which are under scientific investigation. The most powerful effect of ginkgo biloba extract is on the circulating system. Ginkgo biloba extract can be used to treat respiratory problems such as asthma and bronchitis.
