Hawthorn Extract

Cat. No. EXTC-015

Lot. No. (See product label)

Introduction

Description	Hawthorn extract is prepared from the fruit of Crataegus species, a small tree or shrub and a member of the rose family. Hawthorn berry extract powder contains various compounds such as procyanidins, flavonoids and flavonols that exhibit antioxidant properties. Hawthorn berry extract is used to promote the health of the circulatory system, treat angina, high blood pressure, congestive heart failure and cardiac arrhythmia.
