# Chrysanthemum Extract

*Cat. No. EXTC-026*

*Lot. No.* (See product label)

## *Introduction*

***Description***

Chrysanthemum extract is prepared from ried flower bud of Chrysanthemum morifolium Ramat. Chrysanthemum flower extract has good health care value and can be used both as food and as medicine according to Chinese regulation. Chrysanthemum extract contains the flavanone class, the choline, the amino acid, the chrysanthemum glucoside, the chlorogenic acid and so on. Chrysanthemum extract can be used to lower fever, to detoxicate, to treat disorders of the liver, to lower blood pressure.
