Black Cohosh Extract

Cat. No. EXTC-029

Lot. No. (See product label)

Introduction

Description

Black cohosh extract is a perennial wildflower native to eastern North America. Black cohosh root extract helped relieve menstrual cramps, and symptoms of menopause including hot flashes, irritability, mood swings, and sleep disturbances. And black cohosh extract also is considered by many herbalists to be a natural astringent, antispasmodic, antitissive, aphrodisiac, expectorant, sedative, diuretic, and tonic.
